Families with dependents with disabilities face many serious questions about how to best prepare for the future well-being of their loved ones. In most states, every person 18 years of age or older is deemed to be competent by law, regardless of their actual ability or capacity. What is guardianship and/or power of attorney (POA), and what information do you need to make the best decision for your family?

This webinar will cover:

- What is guardianship?
- What are the benefits and limitations of guardianship?
- What is power of attorney, and how does it differ from guardianship?
- Are there any other options beside guardianship or power of attorney?
